

Turnfurlong Infant School - Covid-19 Behaviour Policy – appendix

The principles and practices in our school behaviour policy remain in place. However, at this time we have introduced an additional rule for children’s behaviour relating to COVID-19:

We look after our health and other peoples – We wash our hands when we come in to

school and when we have been outside

We do not touch other people or their things

We put dirty tissues in the bin

We cover our mouths if we sneeze

Rewards

Most of our reward systems remain the same; stickers, values leaves, verbal praise, positive feedback to parents/carers.

We will not be able to have Golden Time at this time.

Sanctions

All of our sanctions remain the same apart from spending time in another class. Where children need to spend time in another environment they will be supervised by the Headteacher in an area away from other group bubbles.
