

Turnfurlong Infant School - Covid-19 Behaviour Policy – appendix

The principles and practices in our school behaviour policy remain in place. However, at this time we have introduced an additional rule for children’s behaviour relating to COVID-19:

We look after our health and other peoples – We wash our hands when we come in to

school and when we have been outside

We do not touch other people or their things

We put dirty tissues in the bin

We cover our mouths if we sneeze or cough

Rewards

Our reward systems remain the same; stickers, values leaves, verbal praise, positive feedback to parents/carers.

Sanctions

All of our sanctions remain the same. If it is necessary to escalate the COVID Contingency Plan, spending time in another class will take place within the year group or with the Deputy Head or Headteacher.
